The Die - Hard Whig Proclaims Unity

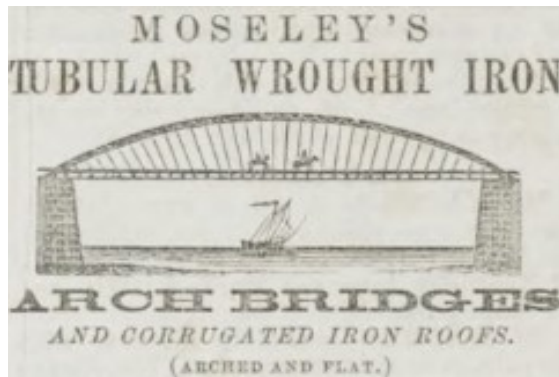

The notion of secession within these tumultuous times was put forward in discussion by Mr. Whig. Born in Kentucky, this individual spoke clear with messages of unity and argued for the necessity for all Kentuckians to tread with careful motion on the idea of secession. Proclaiming the uncertainty in which the our fine state of Kentucky would face if secession was set forth. As a Whig, Mr. Whig tried to remind the legislative body of the old Whig mantra. A government created for the people, by the people, and of the people. Using this bedrock of Whig ideology, Mr. Whig proceeded to hammer their point of view on the idea of secession. Proclaiming that the unknowns that befall our state can be rectified by choosing the best option available.

Upon declaring this unknown variable, Mr. Whig continued to illuminate the main culprit, the

main target of the topic at hand. The Whig proceeded to give their reasons, saying that the act of secession would not necessarily guarantee the safety, prosperity, and function of the state. How could Kentuckians follow through with such an act, when there is no safety net in response? This question was laid before members of the assembly of Kentucky by Mr. Whig.

Mr. Whig's final statements echo the promises of the founding fathers of the nation. To create a nation and a government meant to ensure freedom and liberty. This speech was met with warm applause by the body. Only time will tell on the true aspirations of those in Kentucky.

Moseley's Tubular Wrought Iron

Ready-made sheets of iron for deployment of all matters of construction. Cheap and match the price of wood. The manufacturer is ready to send out heaps of sheets of iron for projects as soon as possible.

Resolution Amendment Passes Strong

A resolution regarding Kentucky's view on recognizing the act of secession from South Carolina has been Amended. The amendment seeks to clarify that Kentuckians deem the act to be recognized but frowned upon. To be viewed as a sour decision made by those from the state of South Carolina.

Passing with 19-10. Kentuckians favor this Amendment. Henceforth acknowledging the secession of South Carolina albeit with a sour notation on the act of choosing to secede from the union. There were voices of discontent from the body noting a split of ideals within particular notations of the idea of secession. Nevertheless, the amendment was passed. The act

was proposed by Stilton; however, time was running short. To be discussed in future proceedings, the act was to ensure funds for the fortification of our state of Kentucky along the Mississippi river. With a focus on laborers of good moral standing, these laborers would help in this process. Enslaved labor is also accepted for the process of fortifying Kentuck. Time will tell on the final decision made by the body of Kentucky

Miracle Stomach Medicine
